PROPOSAL

PASCCA

THE ART OF FLAVOR

THE ART OF FLAVOR

The slogan has been tailored to express Pascca's strongest market differentiation approach. An American-Italian cuisine fusion is commonly offered in the market, but not as Pascca's homemade heavenly recipes.

The love for food, and exquisite professionally cooked recipes is Pascca's competitive edge. We offer our customer's a unique culinary experience, of great quality and one of a kind flavor.

TYPEFACE

We are offering a type face that is more lenient to sophistication and formality, with a playful letter irregularity. This type face is subtle yet unique.

PASCCA

PASCCA

COLOR PALETTE SELECTION

Our color paletter is ideally compatible with Pascca's soothing atmosphere.

A color palette of calm and neutral teal with different hues has been selected, with a complimenting shade of beige.

An orange brick color was selected to add some balance and warmth to the palette.

The color teal is not to be selected as a background color, but is essential for accentuating.

EMBLEM CREATION:

The figure created is based on Pascca's offering of divine food, extraordinary care for recipe detail, and most importantly a unique pinch of flavor.

We created this emblem to subtly express the hand-painted outline of the Sage leaf, which implies the devotion for and the importance of the tiny twists added to Pascca's recipes.
